SUMMARY

A motivated and detail-focused student with expertise in both creative and technical tools. Experienced in using Microsoft Office Suite (Excel, Word, PowerPoint). Familiar with data management, professional email communication, and delivering impactful presentations. Eager to explore new technologies, build practical experience, and make meaningful contributions to organizational goals.

INTERNSHIPS

Python Development Intern

EZ Training Technologies, Hyderabad | [April 2024 To May 2024]

- Acquired hands-on experience in Python programming, enhancing problem-solving and debugging skills.
- Explored the fundamentals of software development workflows and best practices.
- Collaborated on exercises and projects to reinforce programming concepts.

Key Project:

- Community Policing System:
1. Development a Python-based system aimed at fostering collaboration between communities and law enforcement.
2. Implemented features for reporting incidents, tracking response times, and generating statistical insights.
3. Utilized libraries like pandas for data handling and TKinter for the user interface
