CAREER OBJECTIVE

Aspiring Software Engineer skilled in Python, Java, and SQL, along with knowledge of CNN, RNN, application development, database management, and AWS cloud services (EC2, S3, RDS). Eager to apply programming and problem-solving skills to build efficient, scalable applications and contribute to organizational success.

INTERNSHIP

Python Development Intern

EZ Training Technology, Hyderabad *April 2024 – May 2024*

- Developed and tested Python programs using loops, functions, and file handling to solve programming problems.
- Applied exception handling and debugging techniques to identify and resolve coding errors.
- Practiced logical problem-solving and code optimization through hands-on exercises and mini-projects.
- Strengthened core Python programming skills through practical development tasks.

AWS Cloud Computing Intern

SmartBridge (Virtual) , Hyderabad *Jan 2026 — Mar 2026*

- Developed and deployed a Movie Ticket Booking System with real-time booking and seat management features.
- Utilized AWS EC2 for application deployment, S3 for storage, and RDS for database management.
- Implemented authentication and database integration to support secure application functionality.
- Gained hands-on experience in cloud deployment, application performance, and high-availability concepts.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL
Data Science: Data Science, Exploratory Data Analysis (EDA)
Libraries and Frameworks: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, PyTorch
Databases: MySQL
Tools: Git, Docker, Word, PowerPoint

PROJECTS

RNN Based Web Data Mining to Track Terrorist Activities — March 2025 – January 2026

- Developed an NLP-based system to identify terrorism-related content from websites and social media data.
- Applied text preprocessing and classification techniques to categorize content as suspicious or safe.
- Built a dashboard for alerts, data visualization, and CSV/PDF report generation.
- **Key skills:** Python, NLP, RNN, text preprocessing, data visualization.

Online Smart Parking and Reservation System — November 2024 – February 2025

- Developed a web application using HTML, CSS, JavaScript, and MySQL for parking slot reservations.
- Implemented slot availability tracking, booking management, and automated pricing logic.
- Designed database tables to manage users, parking slots, and reservations.
- **Key skills:** HTML, CSS, JavaScript, MySQL, database design, CRUD operations.

Bike Showroom Management System — July 2024 – October 2024

- Developed a Python and MySQL application to manage inventory, sales, and customer records.
- Implemented CRUD operations, database connectivity, and input validation.
- Generated reports on stock levels and sales history.
- **Key skills:** Python, MySQL, CRUD operations, SQL queries, data management.

EDUCATION

Ballari Institute of Technology and Management — June 2022 – May 2026

*Bachelor of Technology in Computer Engineering (**Data Science**)*

Bellary Independent PU College — June 2020 – April 2022

Pre-University Education

Visweswaraiah English Medium High School — May 2010 – June 2020

Secondary Education (Class 10)

CERTIFICATIONS

- Python Internship (by EZ Training Technologies)
- Data Science (by Wipro)
- Google Cloud (by Google)
- AWS (by AWS)
